9. BNI letter from A. R. Veirup to M. K. Barrett, ORP, "Submittal of Preliminary Fire Hazards Analysis for the Pretreatment Building," CCN-032089, dated May 01, 2002.

A Closeout Documentation File has been compiled which provides a complete set of questions developed by the U.S. Department of Energy, Office of River Protection (ORP) review teams and Bechtel National Inc. (BNI) responses to those questions regarding submission of the following: (1) References 1, 2 and 3, Preliminary Safety Analysis Reports for construction authorization for the Low Activity Waste (LAW), High Level Waste (HLW), Pretreatment (PT) and Balance of Facility (BOF) facilities; (2) Reference 4, Partial Construction Authorization Request for preliminary construction authorization of the LAW and HLW facilities; (3) References 5 and 6, revised Safety Requirements Document and Integrated Safety Management Plan for construction authorization; and (4) References 7, 8 and 9, Preliminary Fire Hazards Analyses for the BOF, LAW, HLW and PT facilities. Due to its large size, the Closeout Documentation File is located in the WTP Safety Regulation Division document room.

If you have any further questions, please contact me (509) 373-9189.

Walter J. Pasciak
